I am a Software Developer with 4+ years of experience in building Websites, Web Applications, and Mobile Applications. I specialize in JavaScript technologies including React, Next.js, Angular, along with Node.js, Express.js, Nest.js, and GraphQL for back-end development.

My expertise also extends to PHP (CodeIgniter), SQL (MySQL, SQLite, Oracle), and NoSQL databases like MongoDB and Mongoose. I have experience developing REST APIs and working with Swagger for API documentation. On the mobile front, I use Flutter and Dart to create cross-platform apps, and I'm familiar with Android Studio for native Android development. With a solid understanding of Data Structures and Algorithms.
